

Curriculum Vitae:

- MSE Electromechanical Engineering, UGent, 2008
- Validation Engineer, Hansen Transmissions Int., 2008-2011
- Lecturer Fluid Mechanics, KULeuven Technology Campus Diepenbeek, since 2011
- PhD student, KULeuven, since 2012

Research:

Optimal design of hot water storage and heat pump systems in residential space heating applications

- Detailed storage modelling
- Smart grid context
- System life cycle assesment
